

WHITE GLOVE

1ST VERSE

Oh,
My Love,
I know
In your life
There is no place for me -
I don't care

Oh,
My Love,
Take your last puff
And follow me -
We're going to nowhere

CHORUS:

I wanna you to come closer
I want you to know me from A to Z
I want you to be my best composer
And I'll be your best melody

2ND VERSE:

Oh,
My love
I am taking off a white glove
I know you wanted it -
So did I

But with empty heart
You never win this fight
Your story ends
You have no chance
And that's when I'll come by

CHORUS:

I wanna you to come closer
I want you to know me from A to Z
I want you to be my best composer
And I'll be your best melody

BRIDGE:

I saw sunrise
In your black eyes
There is no more light
It's just a December dark night

CARELESS

1ST VERSE:

Straight to hell
If you asked me for direction
That's where I send you

I can tell you're doing well-
Under masks that you wear
You're hiding all your wounds

CHORUS:

Let me Let me
Let me go
I don't wanna hear your lies anymore
I would bring up brighter shades by
Getting rid of the sound of your steps

I don't wanna be aware
Every time you're here or there
Whatever you do
Whatever you dare
I don't wanna fucking care

2ND VERSE:

Right away in hell
Should have asked me for the place -
That's where you'd meet me
Got myself out of the shell
Now will burn on the flame with no
more chance to flee

CHORUS:

Let me Let me
Let me go
I don't wanna hear your lies anymore
I would bring up brighter shades by
getting rid of the sound of your steps

I don't wanna be aware
Every time you're here or there
Whatever you do
Whatever you dare
I don't wanna fucking care

BRIDGE:

This is the time
This is the time
This is the time

I am so sick of what
I did and what I do
I am so sick of what
I know and what I knew
But whatever you do
whatever you dare

I don't wanna fucking care

CHORUS:

FORGIVENESS

1ST VERSE:

Give it to me –
The taste of satisfaction
Leave them behind –
All unanswered questions

Words became black
But silence is darker
You lost mind –
You are so lucky

PRE-CHORUS:

Get on the stage
To exorcise your demons
They'll tear you apart –
Exactly what you needed

Take out your heart
And put it on the bloody floor
You never wanted it
Now you want more

CHORUS:

I am coming back and you're going
forward,
Broken pieces of your stone heart...
This shadow love is melting away...
Never wanted you to stay...

Forgiveness
Forgiveness
Never wanted you to stay...

2ND VERSE:

I am aware
Of everything you're doing -
Each time you're in hell
My heart screams hallelujah

Exit the trap
I lovingly made for you
You didn't want it
But now you do

PRE-CHORUS:

Get on the stage
To exorcise your demons
They'll tear you apart –
Exactly what you needed

Take out your heart
And put it on the bloody floor
You never wanted it
Now you want more

CHORUS:

EVERYTHING I HATE ABOUT YOU

1ST VERSE:

I hate everything about you, there's
nothing left to love
We're at the end of our story babe,
and there's no chance to start
I'm all fed up with all the things you
did, you have messed up my life
I hate everything about you babe,
that's why I'm here toni-i-i-i-ight
I hate the way you walk and even
more the way you speak
And all the things that you adore
make me feeling sick
There's nothing worse in universe
than your embrace
I wish I could forget you
And your fraudulent fa-a-a-a-ace

CHORUS:

But every time you brush against
me I feel so good, I feel so good
That's why I hate you even more
And everything
Everything
Everything I hate about you

2ND VERSE:

I'm not really keen on games
you've playing all the time
Cause constantly you're changing rules
and I'm out of line
I tried to shoot you down a thousand
times
but you are still alive
Well, maybe I'm at shooting really bad

BRIDGE:

Or still in love
Love
Love
Love
Love
Love
Love
Love
Love
Love

CHORUS:

But every time you brush against me
I feel so good, I feel so good
That's why I hate you even more
And everything
Everything
Everything I hate about you

LULLABY

1ST VERSE:

The only thing I miss the most
It's our time that we have lost
It's our smiles and inner sparks
That turned so recklessly to dust
The thing that will be missed so much
It's love that we have built from scratch
It's happiness we used to hold
Which kept you warm once feeling cold

PRE-CHORUS:

Colder
Feeling colder
Feeling colder
Feeling cold

CHORUS:

I went through this winter path
And now I am here frozen to death
I've traded everything we have
And called betrayal being brave
There is no lighthouse anymore
I am lost - tell me, where should I go
Tell me I am still a part of your dreams

2ND VERSE:

The only thing I'll pray to keep
It's part of yours that I've worshipped
It's kindness that your broken heart
Will give to someone by your side

PRE-CHORUS:

Hold her
Feeling colder
Feeling colder
Feeling cold

CHORUS:

I went through this winter path
And now I am here frozen to death
I've traded everything we have
And called betrayal being brave
There is no lighthouse anymore
I am lost- tell me, where should I go
Tell me I am still a part of your dreams

OUTRO:

Tell me, please
Please
Please
Tell me, please
Please
Please

THE AFTERLIGHT

1ST VERSE:

You won, little sinner—
and lost all the same.
Your hands hold the trophy
but bleed with the blame.

You won, little sinner —
but look at your prize:
a crown made of silence,
a grave in disguise.

You ran from his heartbeat,
you hid from his trust.
He died in your shadow,
you rose from his dust.

CHORUS:

Do you think
you've made it through?
Your own shadow
follows you.

You keep running —
Night runs too
What you flee from
mirrors you

2ND VERSE:

Your hands made the ending,
you severed his head.
Now walk through the kingdom
you built with the dead.

The gate you are seeking
was sealed long before.
There's nothing beyond it—
no after, no more.

You ran from his heartbeat,
you hid from his trust.
He died in your shadow,
you rose from his dust.

CHORUS:

Do you think
you've made it through?
Your own shadow
follows you.

You keep running —
Night runs too
What you flee from
mirrors you

GOODWILL

1ST VERSE:

Would you notice
My silent steps behind your door
Would you notice
My warm shadows on your black walls
Would you notice
Me getting over your spells
Would you notice
Me being with somebody else

I have noticed
The last time you've touched me
with your glance
I have noticed
The last time you've given
my pride a chance
I have noticed
You've silently flipped over our page
I was smart enough to notice
The place where I've followed you
was a cage

1ST CHORUS:

Take out my heart
Tear me apart
Finish what you've planned
to do from the start
I knew there's no chance to survive with you
Such a shame
Because I wanted to

You've never imagined us holding each other
While I wanted you to be more than a lover
I never had a chance to give my love to you
Though I wanted...

2ND VERSE:

Did I notice
The moment getting poisoned
from your virtuous spoon
Did you notice
My whole body bleeding over your room
Did you notice
These burns from the tears all over my face
Did I notice
The moment when I fall into your disgrace

2ND CHORUS:

You've taken my heart
You tore me apart
I bet you've imagined
my corps from the start
There's nothing to hide
I haven't survived
Such a shame
Because I wanted to

I dreamt of us being more than just lovers
While you laughed at all
my hopes and desires
I never had a chance to give my love to you
Though I wanted

To...

Wanted to
I
Wanted to
I
Wanted to...
